In our paper, there is a typo in Eq. (2), where  $10^8$  should be  $10^9$  instead. The correct Eq. (2) should read

$$D = 1.304 \times 10^9 (T/n)^{1/2} a_0, \quad (2)$$

where  $T$  and  $n$  are the plasma temperature (in degrees Kelvin) and density (in  $\text{cm}^{-3}$ ), respectively.
